RELEASE OF NUL STAFF AND HALT OF OPERATIONS DUE TO CORONA OUTBREAK (COVID-19)

Staff and students of the National University of Lesotho are hereby notified that at its Special Meeting held on Thursday, 26th March, 2020, University Management considered the current situation of the rapid spread and significant mortality of the Corona Virus (COVID-19) outbreak in the country.

Management also noted a Cabinet Resolution communicated by the Prime Minister in his address on the 25th March, 2020 which orders that as a measure to prevent and control the spread of COVID-19, the country must come to a lockdown starting from 29th March, 2020.

In compliance with this order, Management resolved that all staff should be released today, 26th March, 2020 at 15:00hrs to get ready for the complete lockdown mentioned above. Staff will be expected to report back to duty on Tuesday, 21st April, 2020 when the lockdown ends.

NUL staff are, however, alerted that they should be on stand-by to be called to provide essential services as need be from the 6th April, 2020. Such information will be communicated by the Deans and Directors and/or Heads of Departments to all affected.

Management reminds all Staff to take all precautionary measures while at their homes during the lockout.

Management also wishes all the NUL Community good health and God’s protection during this period of global crisis.
